Debbie
Dear Ms Kemp

I refer to your letter of 11 June 2009 on behalf of the sport industry in NSW in regard to confirmation about the 2009/10 Sport Development Program.

Firstly I would like to confirm that this program will continue into the future. The recent review of sport and recreation grant programs confirmed that the Sport Development Program, through its investment in the State sporting organisations and peak industry bodies, is a most important way that the Government supports participation in sport and recreation in NSW.

Secondly I am pleased to confirm that all organisations funded under this program will receive funding at the same level as they received in 2008/09 for the financial year ahead. NSW Sport and Recreation will contact all funded organisations shortly to negotiate funding agreements for 2009/10.

I am also pleased to advise that the Sport Development Program will return to a three year contract basis in the 2010/11 financial year, providing additional security for State sporting organisations into the future.

I would be pleased if you could advise your members of this information.

Yours sincerely

K Greene
